Why you should join this workshop?

Get actionable tools and insights to overcome these challenges.

- ✓ Inefficiency increases costs and delays results.
- ✓ Problems keep recurring without clear root causes.
- ✓ Teams rely on reactive, unstructured fixes.
- ✓ Improvement efforts lack measurable impact.

+230 5852 7769

What you'll learn in this workshop:

This isn't just theory
it's practical
knowledge you can
apply right away.

Small Changes.
Real impact.

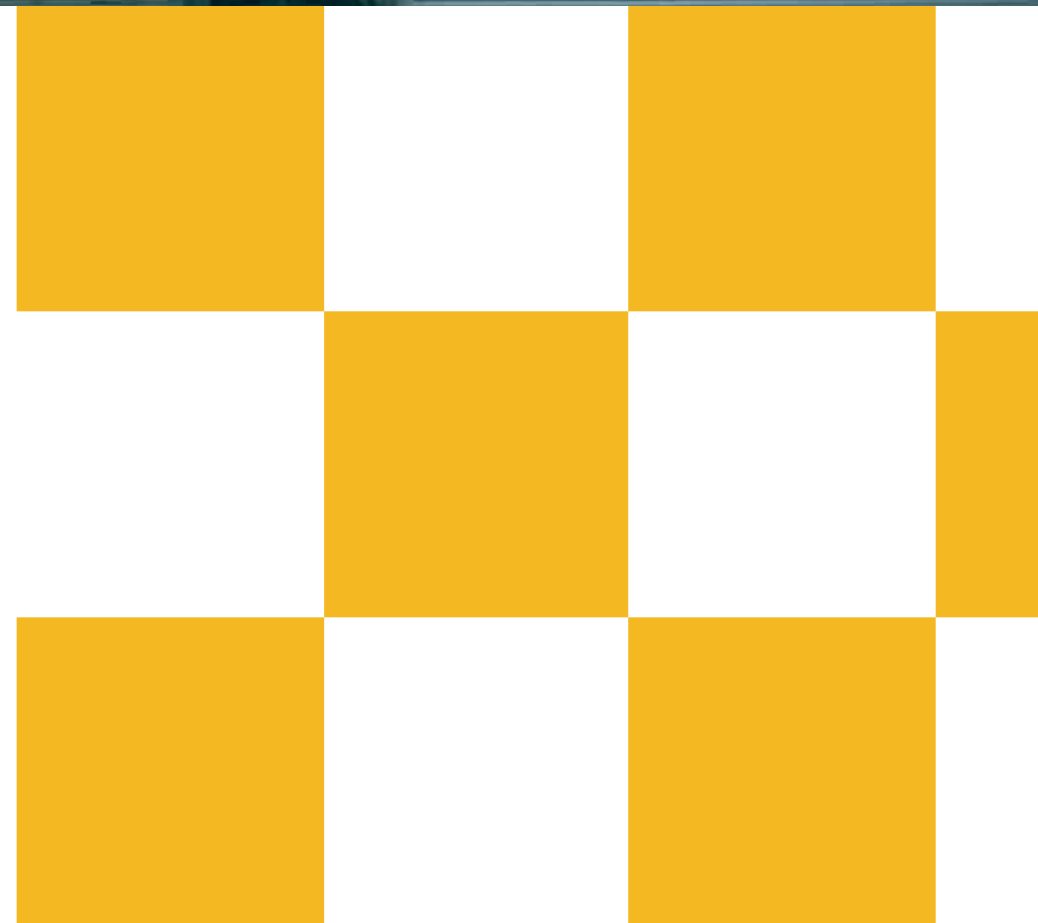

- ✓ Fundamentals of Lean Six Sigma and Lean management.
- ✓ The DMAIC framework and its application.
- ✓ Identification of waste and process inefficiencies.
- ✓ Use of basic data and quality tools for improvement.
